## General Faculties Council

Reorganization of the Faculty of Dentistry highlighted the 26 May meeting of GFC. An affirmative vote followed the presentation of a motion that the Department of Dental Clinical Sciences be reorganized as the Department of Stomatology and the Department of Restorative Dentistry. Stomatology, as Dean Thompson was quick to point out, is the study of the structures of diseases of the mouth.

The objectives of the reorganization are to improve the

Faculty's academic structure, to establish smaller academic units that have common goals and objectives, to improve the departmental distribution of resources and the workload of department chairmen, to facilitate intra-departmental curriculum development, to move the Division of Biomaterials (dental materials) from the Department of Oral Biology into one of the two new departments, and to include Hospital Dentistry in one of the four departments.

The Faculty of Dentistry has been granted provisional accreditation status by the Council on Education of the Canadian Dental Association for a three-year period effective 1 July 1979. As one of the major concerns of the accreditation team was the academic structure of the Faculty, the Council on Education concluded that "some re-arrangement of staff and a new division of responsibility is the number one priority at this school." The reorganization plan will be

forwarded to the Board of Governors.

### *New Members*

The following individuals will serve on Council: J.W. Osborn, Professor and Chairman of Oral Surgery; David Sproule, an undergraduate student in Law; and Anasol Ismal, a graduate student in Economics. Dr. Osborn's term is three years; Messrs. Sproule and Ismal were appointed to one year terms. □

## Researchers Receive Coal Research Contract

Dr. B. Ignasiak, senior scientist of the Coal Research Department of the Alberta Research Council, and Drs. M.L. Jeremic (Department of Mineral Engineering) and C.M. Rodkiewicz (Department of Mechanical Engineering) have received a \$150,000 ERRF contract for the development of the first phase of the proposed process for Hydraulic Mining, Beneficiation and Transportation of coal.

The process that is to be developed consists of three steps: a) extraction of coal using high pressure water jet/oil jetting; b) beneficiation of coal fines in emulsions formed on jetting; and c) pipelining of coal agglomerates.

Although the above-described process could be used for lower rank (subbituminous) coal it has particular potential for prime

metallurgical Western Canada coals. The reserves of such coals in Alberta and B.C. are of the order of 100 billion tons and they are considered to be the largest in the western world. Because of that and due to very low sulfur content it is expected that western Canadian coals are likely to experience a continuing and growing demand on the world markets.

A major involvement of the University of Alberta researchers into developing new methods for extraction, beneficiation and transportation of metallurgical coal will provide an opportunity for graduate students of the Faculty of Engineering to gain first-hand experience in this vital field of coal technology. □

## Academic Staff Pensions

A Pension Bulletin dated 8 May 1980 issued by the Alberta Pension Policy Group on behalf of the Universities Academic Pension Board has been mailed to all Universities Academic Pension Plan participants. The Bulletin reminds plan members who were in the employ of an Alberta university on 1 July 1978 that the transitional rules for recognition of prior service at preferred rates will expire on 30 June 1980.

To protect their rights to purchase prior service at the preferred rates provided under Section 38, eligible members must ensure that they have satisfied both of the following conditions: (a) that they have by 30 June 1980 made a written request to the Pension Board to be advised of the amount required to establish any period or periods of

service as pensionable service; and (b) that they have by 30 June 1980 either paid the cost in full or have made a pay assignment to authorize payroll deductions.

An APF. 46 Record of Service form on which to record your prior service costing request is available from your University Pension office. It is suggested that any period of service which has not been established as pensionable service by contributions to this plan (or one of its predecessor plans) should be included on the APF. 46 form—if in doubt, include it.

*Note:* Foreign service should be included even though, under a Federal tax ruling, such service cannot be established as pensionable service at this time. The APF. 46 form should be submitted through your University Pension office.

The following major categories of members are affected; and individuals should take action to protect their rights under Section 38:

1. Members who have requested but not yet received a cost statement.
2. Members who have made and/or have arranged to make one or more lump sum payments but have neither made payment in full nor a pay assignment.

3. Members who have received cost statements but who have taken no action.

4. Members who have not requested consideration and costing of their prior service.

For further information contact the Pension Plans Division, Office of the Comptroller, 141 Athabasca Hall, telephone 432-5634.

Copies of the Bulletin are available on request. □

## Acting Dean of Nursing Appointed

Peggy-Anne Field has been appointed Acting Dean of the University of Alberta's Faculty of Nursing. Her appointment commences 1 July 1980, the same day that Dr. Amy E. Zelmer, currently Dean of Nursing, becomes Associate Vice-President (Academic).

At the present time, Miss Field is an Associate Professor of Nursing. She has been on leave for the past two years and, most recently, has been a doctoral candidate in the Faculty of Education.

Miss Field was born in Praa

Sands Cornwall, England, and received her nursing education at Addenbrooke's Hospital, Cambridge; Hammersmith Hospital, London; Shrubbery Maternity Home High Wycombe; McGill University; and the University of Washington.

She came to this University in 1964 as a lecturer. She was president of the Western Region, Canadian Association of University Schools of Nursing, from 1970 to 1972.

Miss Field has received Alberta Advanced Education and Manpower grants for obstetrical nursing study. □

The recent Clinical Biofeedback Workshop held on the University Campus received a number of paper and workshop presentations from Faculty and Graduate students. Norman Thomas and Doug Pettigrew of the Faculty of Dentistry presented a one-day workshop on "The Role of Biofeedback in Dentistry." Masako Walley of the Faculty of Rehabili-

tation Medicine coordinated a one day workshop on "Applications of Biofeedback in Physical Medicine and Rehabilitation." George Fitzsimmons, Department of Educational Psychology, presented two papers, "Ethics for the Practitioner;" and "Behavioral Principles of Therapy." Dr. Fitzsimmons coordinated the two day workshop and specifically organized the Behavioral Medicine specialty. Other presenters from the Educational Psychology Department included Patrick Carney, "Preparing the Patient for Biofeedback" and "Treating Tension and Migraine Headache with Biofeedback." Ray Douziech presented "Fears, Phobias and Biofeedback," Dave Mensink presented "Introduction to Electroencephalography," Faye Carbol presented "Introduction to Electromyography," Fran Vargo presented "Introduction to the Biofeedback," Dave Mensink, Evangeline Walker and Ken Meen presented "Introduction to Temperature Training in Biofeedback." Ms. Walker also presented a patient and discussed Bruxism and biofeedback.

Donald L. Flock, Chairman-Designate of the Department of Mineral Engineering, has been honored by the award of Honorary Life Membership in the Association of Professional Engineers, Geologists and Gophysicist of Alberta (APEGGA) in recognition of "signal service to the Association." Dr. Flock, who was born in Calgary, received his degrees from the University of Oklahoma and Texas A & M University. He has been an employee of the University since 1957, serving as Associate Dean of Engineering from 1969 to 1973.

Masako Walley, Occupational Therapy, presented papers on "Explanations for Recovery After CNS Damage" and "New Applications of OT After CNS Damage," at the Seventh Annual Seminar on Acquired Brain Damage. The focus of this year's seminar was "Motor Control." Sponsored by the Ontario Hospital Association and the Ontario Society of Occupational Therapists, the seminar took

place 8 and 9 May at the University of Toronto.

L.C. Green, University Professor, Department of Political Science, has been appointed to the State of Colorado Emergency Advisory Center and to the Board of the Institute for the Study of International Terrorism.
